Some of the many weekly activities your child will experience at St. John's Preschool program are physical education, library, and computer classes; pre-reading and math skills; weather and calendar activities; social skills; small and large motor development; arts and crafts; science exploration; dramatic play, finger plays, and music; cooperation and working together; responsibility, caring, respect; and so much more!

St. John's Preschool is a licensed program offering quality instruction in a clean, well functioning, and safe facility.

"St. John's has been a refreshing preschool experience for us. This high quality program has not only offered extraordinary learning experiences but has also been a nurturing place for our daughter. Isla is always excited to get to school and always has a smile on her face when we leave. The classroom experiences are often carried over to more learning at home which in turn Mrs. Picken is always happy to hear about as well. We couldn't ask for a better place to start our children's schooling."
